

# ANJALY SADASIVAN

Software Engineer

## ABOUT ME

Aspirant of professional mastery calibrated with exquisite communication skills and great interactivensess. On a very simple note, I have been working with Quest Global for the past 2.2 years, in the medical domain services. Working in engineering, medical devices has always lit the passion up and has helped in sharpening the swords towards mastery. Graduating from Government Engineering College, Idukki, the urge was completing in moving forward and be a progressive learner in life. Challenges and pressure in professional life are always a privilege because ever since I have encountered them there had been an expansion of capacity, which helps look beyond the limits. The profile is all about seeking growth, and turning everything that seems hard to be little easy with progression of personal career and the growth of the organization.
